What is Tor?

Tor is free software and an open network that helps you defend against traffic analysis, a form of network surveillance that threatens personal freedom and privacy, confidential business activities and relationships, and state security.
Learn more about Tor »

Why Anonymity Matters

Tor protects you by bouncing your communications around a distributed network of relays run by volunteers all around the world: It prevents somebody watching your Internet connection from learning what sites you visit, and it prevents the sites you visit from learning your physical location.

CROWDSOURCING

....

➤ Externalización, por parte de una empresa o institución, de una función realizada por un empleado, a un grupo indefinido (y normalmente grande) de personas, mediante una convocatoria abierta. Esta externalización puede tomar la forma de una producción-de-iguales (peer-production) cuando el trabajo se realiza de forma colaborativa, pero también puede llevarse a cabo de forma individual
